

NETWORK SOLUTIONS

Our approach is shaped by the philosophy that passion for the job + certified staff = 100% customer satisfaction.

We build long term relationships through an intricate understanding of client requirements which allows us to design, deploy and maintain world class networks.

NETWORK DESIGN, INSTALLATION & MAINTENANCE

iScrip People & Technology is a specialised fibre optic and cables systems installer and integrator, applying technical knowhow gained through in-depth commercial experience since our inception in 2000. We design, install and maintain world-class high performance networks through close collaboration with our clients.

INDUSTRY FOCUSED SOLUTIONS

iScrip People & Technology actively supports products that are recognized worldwide and do offer non – compromising warranties and guarantees when it comes to performance. Although we have preferred products that we support, we however don't impose them to our clients but we do advise according to the requirements of the specific location and job.
